Graduation

At the end of the course, you'll want to be able to tell the world of your achievement. You'll be presented with an LAL Certificate at our graduation ceremony.

Our methodology

English lessons are at the heart of our business, and we have enormous experience in teaching English as a foreign language. Our teachers are skilled at tailoring our lessons to make them engaging and dynamic while meeting the needs of each student.

We use a combination of traditional and modern teaching methods and a variety of teaching styles.

We understand that you come from a unique learning background and all of us learn in different ways, so our teachers employ a variety of teaching approaches to get the best out of you.

We use a structured approach with systematic recycling and regular progress testing.

Recycling of language consolidates learning and regular progress testing identifies your strengths and weaknesses. In combination, this creates an efficient, effective learning process.

We have a comprehensive language syllabus with a strong communicative element which will extend and consolidate your language awareness and vocabulary.

Our curriculum is designed to match the Common European Framework of Reference for Languages (CEFR). Course materials are carefully chosen to support and achieve specific language and communication goals, helping you to become more effective communicators.

“

Our teacher is very kind and funny...

We have the opportunity to speak a lot and during our speech he takes notes of our mistakes so when we're finished he can tell us what kind of mistakes we made. In addition to this we practise our pronunciation and fluency because our teacher gives us some texts that we have to read out loud. These lessons are very useful.

Gloria Zabeo, Italy

”

We include an eclectic mix of tasks and activities carefully selected to match the needs and suit the learning styles of the individuals in the group.

Each teacher creates a dynamic learning environment which encourages students to fully participate in the learning and communication process. A combination of group work, pair work and individual study keeps the classes lively and engaging.

We help students to develop skills and strategies which will enable the student to take responsibility for their own learning and achieve independence beyond the classroom.

We are committed to helping everyone develop their study skills and optimise their learning. Through regular progress testing and by encouraging feedback on lesson content, you will develop self-awareness and improve your confidence, resulting in greater learner autonomy.

Our English Only policy

The best way to learn English is to speak only English, so it is our policy to insist that everyone always speaks English in the classroom and around the school, except for emergencies or beginner students.

“

I studied at LAL for three months...

During my first month I was in Upper-Intermediate with Brenda. She has been a great teacher. We did many different things, which I really appreciate it because I barely had spoken in English and it helped me to communicate better.

In my second month I was in Advanced with James. Thanks to him I've learnt new vocabulary and I started writing because he asked us to write him every day about any topic using the words we had learnt.

I spent my last month preparing for the IELTS exam with Garen and Maggie, two excellent teachers who taught me a lot about reading, speaking, writing and listening. That allowed me to get the mark I needed and I'm very grateful.

I had a great time in LAL and I've learnt so much in just three months. I highly recommend it as the best school where you can learn English with great facilities, and staff and teachers who help you on everything you need.

My dream is to become a commercial airline pilot...

When I first started at LAL my English level was very low. I spent a year studying and when I left I was advanced. Class sizes are small so the teachers were really able to focus on my needs. I took their TOEFL prep course before I left and I have been accepted into a flight school in Florida.
