LANGUAGE & LEISURE

LAL offers the complete package, with carefully-designed programmes for our students, quality education, 24-hour care and support plus plenty of adventure!

LEARN AND HAVE FUN

Our courses are designed to be enjoyable, as well as educational, because learning should be fun. Our enthusiastic teachers use communication, games and activities to make the lessons more appealing to our younger students.

INTERNATIONAL SCHOOLS

Students from over 100 countries visit our schools every year so students will not only learn about the local culture, but also make friends for life from around the world.

SAFE LOCATIONS

Our schools are located in peaceful and secure areas. There are lots of nearby attractions which are safe for our junior students to explore whilst being accompanied by LAL activity leaders.

Fun-packed courses for juniors & lifetime experiences for teenagers

FUTURE PROSPECTS

The stimulating lessons taught by our qualified teachers will enable our students to communicate in English and build their confidence. These skills can then become a stepping stone for their future, helping them to progress into higher education.

RESIDENTIAL EXPERIENCE

Summer schools offer students the traditional residential experience in private schools or university campuses, with safety and security being our number one priority.

EXPLORE THE WORLD

With a large number of exciting destinations to explore, students will have great fun discovering new places and learning about different cultures with their friends.

In the Classroom

QUALITY TEACHING

Our teachers are native-speakers or of a native-speaker standard and are trained and supported by our senior academic managers. They are recruited for their interest, energy and enthusiasm, making lessons engaging and motivating for all young learners.

“

A great series of books. The topics really got the students engaged in the course.

David Boyd, Senior Teacher

”

LAL COURSE BOOK

LAL has written its own young learner course books called Round the World. Designed to appeal specifically to young learners and teenagers, the books feature modern, stimulating materials using a variety of methods to ensure fast progression.

There are six levels, Beginner, Elementary, Pre-intermediate, Intermediate, Upper-Intermediate and Advanced.

The lessons are structured around conventional communicative and project-based lessons to maximise the student's learning experience.

The beginner book is for our youngest students and is designed to include topics and materials, suited to their age and lower levels of English.
